---

**FortisBC Inc.****Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)  
For the three and six months ended June 30, 2017 and 2016**

---

**1. DESCRIPTION OF THE BUSINESS**

FortisBC Inc. ("FBC" or the "Corporation") is a wholly-owned subsidiary of FortisBC Pacific Holdings Inc. ("FortisBC Pacific"), which is an indirect wholly-owned subsidiary of Fortis Inc. ("Fortis"), a Canadian public company.

FBC is an integrated, regulated electric utility operating in the southern interior of British Columbia ("BC"), serving approximately 170,000 customers directly and indirectly. The Corporation's regulated business includes four hydroelectric generating plants with an aggregate capacity of 225 megawatts ("MW"), approximately 7,200 kilometers of transmission and distribution power lines, and a peak demand of 746 MW.

In February 2016, FBC and its subsidiaries completed the sale of the 0395518 Power Partnership (formerly Walden Power Partnership) ("WPP") non-regulated 16 MW run-of-river hydroelectric power plant assets and subsequently dissolved the partnership. Prior to the sale, the WPP non-regulated assets were reclassified from property, plant and equipment to assets held for sale on the consolidated balance sheet as at December 31, 2015.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES****Basis of Presentation**

These condensed consolidated interim financial statements have been prepared by management in accordance with accounting principles generally accepted in the United States of America ("US GAAP") for condensed consolidated interim financial statements and is presented in Canadian dollars unless otherwise specified. As a result, these condensed consolidated interim financial statements do not include all of the information and disclosures required in the annual consolidated financial statements and should be read in conjunction with the Corporation's 2016 annual audited consolidated financial statements prepared in accordance with US GAAP. In management's opinion, the condensed consolidated interim financial statements include all adjustments that are of a recurring nature and necessary to present fairly the consolidated financial position of the Corporation.

The accounting policies and methods of application used in the preparation of these condensed consolidated interim financial statements are consistent with the accounting policies used in FBC's annual audited consolidated financial statements as at December 31, 2016.

In 2014, Canadian securities regulators approved the extension of the Corporation's exemptive relief to continue reporting under US GAAP instead of International Financial Reporting Standards ("IFRS") until the earlier of January 1, 2019 and the effective date prescribed by the International Accounting Standards Board for the mandatory application of a standard within IFRS specific to entities with activities subject to rate regulation.

The condensed consolidated interim financial statements include the historical accounts of the Corporation and its wholly-owned partnership and subsidiaries, WPP, 0395518 B.C. Ltd. (formerly ESI Power-Walden Corporation Ltd.) and West Kootenay Power Ltd. All inter-company transactions and balances have been eliminated upon consolidation.

An evaluation of subsequent events through July 28, 2017, the date these condensed consolidated interim financial statements were available to be issued, was completed to determine whether any circumstances warranted recognition and disclosure of events or transactions in the condensed consolidated interim financial statements as at June 30, 2017. Subsequent events have been appropriately disclosed in these condensed consolidated interim financial statements.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****New Accounting Policies*****Simplifying the Test for Goodwill Impairment***

Effective January 1, 2017, the Corporation adopted Accounting Standards Update (“ASU”) No. 2017-04, *Simplifying the Test for Goodwill Impairment*. The amendments in this update simplify the subsequent measurement of goodwill by eliminating step two in the current two-step goodwill impairment test. An entity will apply a one-step quantitative test and record the amount of goodwill impairment as the excess of a reporting unit’s carrying amount over its fair value, not to exceed the total amount of goodwill allocated to the reporting unit. The new guidance does not amend the optional qualitative assessment of goodwill impairment. The above-noted ASU was applied prospectively and did not impact the Corporation’s condensed unaudited interim consolidated financial statements for the three and six months ended June 30, 2017.

**Future Accounting Pronouncements**

FBC considers the applicability and impact of all ASU’s issued by the Financial Accounting Standards Board (“FASB”). The following updates have been issued by FASB, but have not yet been adopted by FBC. Any ASUs not included below were assessed and determined to be either not applicable to the Corporation or are not expected to have a material impact on the consolidated financial statements.

***Revenue from Contracts with Customers***

ASU No. 2014-09 was issued in May 2014 and the amendments in this update create Accounting Standards Codification (“ASC”) Topic 606, *Revenue from Contracts with Customers*, and supersede the revenue recognition requirements in ASC Topic 605, *Revenue Recognition*, including most industry-specific revenue recognition guidance throughout the codification. This standard clarifies the principles for recognizing revenue and can be applied consistently across various transactions, industries and capital markets. In 2016, a number of additional ASUs were issued that clarify implementation guidance in ASC Topic 606. This standard, and all related ASUs, is effective for annual and interim periods beginning after December 15, 2017. Early adoption is permitted for annual and interim periods beginning after December 15, 2016. The Corporation has elected not to early adopt.

The new guidance permits two methods of adoption: (i) the full retrospective method, under which comparative periods would be restated, and the cumulative impact of applying the standard would be recognized as at January 1, 2017, the earliest period presented; and (ii) the modified retrospective method, under which comparative periods would not be restated and the cumulative impact of applying the standard would be recognized at the date of initial adoption, January 1, 2018. The Corporation expects to use the modified retrospective approach, however, it continues to monitor interpretative issues that remain outstanding. Any significant developments in interpretative issues could change the Corporation’s expected method of adoption.

The majority of the Corporation’s revenue is generated from electricity sales to customers based on published tariff rates, as approved by the BCUC, and is considered to be in scope of ASU No. 2014-09. FBC has assessed tariff revenue and expects that the adoption of this standard will not change the Corporation’s accounting policy for recognizing retail and wholesale tariff revenue and therefore, will not have an impact on earnings. FBC continues to assess whether this standard will have an impact on its remaining revenue streams. The Corporation has not disclosed the expected impact of the adoption of this standard on its consolidated financial statements as it is not expected to be material. However, certain specific interpretative issues remain outstanding and the conclusions reached, if different than currently anticipated, could have a material impact on the Corporation’s consolidated financial statements and related disclosures. FBC continues to closely monitor developments related to the new standard.

The adoption of this standard will impact the Corporation’s revenue disclosures as revenue from contracts with customers is required to be reported separately from alternative revenue, which is outside the scope of ASC Topic 606. FBC is in the process of drafting these required disclosures.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)*****Recognition and Measurement of Financial Assets and Financial Liabilities***

ASU No. 2016-01, *Recognition and Measurement of Financial Assets and Financial Liabilities*, was issued in January 2016 and the amendments in this update address certain aspects of recognition, measurement, presentation and disclosure of financial instruments. Most notably, the amendments require the following: (i) equity investments in unconsolidated entities (other than those accounted for using the equity method of accounting) to be measured at fair value through earnings; however, entities will be able to elect to record equity investments without readily determinable fair values at cost, less impairment, and plus or minus subsequent adjustments for observable price changes; and (ii) financial assets and financial liabilities to be presented separately in the notes to the consolidated financial statements, grouped by measurement category and form of financial asset. This update is effective for annual and interim periods beginning after December 15, 2017. FBC is assessing the impact that the adoption of this update will have on its consolidated financial statements and related disclosures.

***Leases***

ASU No. 2016-02 was issued in February 2016 and the amendments in this update create ASC Topic 842, *Leases*, and supersede lease requirements in ASC Topic 840, *Leases*. The main provision of ASC Topic 842 is the recognition of lease assets and lease liabilities on the balance sheet by lessees for those leases that were previously classified as operating leases. For operating leases, a lessee is required to do the following: (i) recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, on the balance sheet; (ii) recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term on a generally straight-line basis; and (iii) classify all cash payments within operating activities in the statement of cash flows. These amendments also require qualitative disclosures along with specific quantitative disclosures. This update is effective for annual and interim periods beginning after December 15, 2018 and is to be applied using a modified retrospective approach with practical expedient options. Early adoption is permitted. FBC is assessing the impact that the adoption of this update will have on its consolidated financial statements and related disclosures.

***Measurement of Credit Losses on Financial Instruments***

ASU No. 2016-13, *Measurement of Credit Losses on Financial Instruments*, was issued in June 2016 and the amendments in this update require entities to use an expected credit loss methodology and to consider a broader range of reasonable and supportable information to inform credit loss estimates. This update is effective for annual and interim periods beginning after December 15, 2019 and is to be applied on a modified retrospective basis. Early adoption is permitted for annual and interim periods beginning after December 15, 2018. FBC is assessing the impact that the adoption of this update will have on its consolidated financial statements and related disclosures.

***Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost***

ASU No. 2017-07, *Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*, was issued in March 2017 and the amendments in this update require that an employer disaggregate the current service costs component of net benefit cost and present it in the same statement of earnings line item as other employee compensation costs arising from services rendered. The other components of net benefit cost are required to be presented separately from the service cost component and outside of operating income. Additionally, the amendments allow only the service cost component to be eligible for capitalization when applicable. This update is effective for annual and interim periods beginning after December 15, 2017. Early adoption is permitted, however, early adoption must be within the first interim period of a reporting year. The amendments in this update should be applied retrospectively for the presentation of the net periodic benefit costs and prospectively, on and after the effective date, for the capitalization in assets of only the service cost component of net periodic benefit costs. FBC is assessing the impact that the adoption of this update will have on its consolidated financial statements and related disclosures.

**FortisBC Inc.**
**Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)  
For the three and six months ended June 30, 2017 and 2016**
**3. REGULATORY MATTERS**
**Multi-year Performance Based Ratemaking Plan for 2014 to 2019 (“2014 PBR Application”)**

In September 2014, the British Columbia Utilities Commission (“BCUC”) issued its decision on FBC’s 2014 PBR Application. The approved PBR Plan incorporates an incentive mechanism for improving operating and capital expenditure efficiencies. Operation and maintenance expenses and base capital expenditures during the PBR period, 2014 to 2019, are subject to an incentive formula reflecting incremental costs for inflation and half of customer growth, less a fixed productivity adjustment factor of 1.03 per cent each year. The PBR Plan also includes a 50/50 sharing of variances (“Earnings Sharing Mechanism”) from the formula-driven operation and maintenance expenses and capital expenditures over the PBR period, and a number of service quality measures designed to ensure FBC maintains service levels. It also sets out the requirements for an annual review process which provides a forum for discussion between FBC and interested parties regarding its current performance and future activities.

In December 2015, the BCUC issued its decision on FBC’s 2016 rates. The decision results in a 2016 average rate base of approximately \$1,286 million and a rate increase of 2.96 per cent over 2015 rates.

In January 2017, the BCUC issued its decision on FBC’s 2017 rates. The decision results in a 2017 average rate base of approximately \$1,285 million and a rate increase of 2.76 per cent over 2016 rates.

**4. SEASONALITY OF OPERATIONS**

Interim results fluctuate due to the seasonal demands for electricity, the movements of electricity prices and the timing and recognition of regulatory decisions. FBC’s operations generally produce lower net earnings in the third quarter due to the timing of power purchases, and higher net earnings in the first and fourth quarters due to increased customer load as a result of cooler weather, while certain expenses such as depreciation, interest and operating expenses remain more evenly distributed throughout the fiscal year. As a result of the seasonality, interim net earnings are not indicative of net earnings on an annual basis.

**5. CREDIT FACILITIES**

As at June 30, 2017, the Corporation had bank credit facilities of \$160 million, comprised of a \$150 million operating credit facility and a \$10 million demand overdraft facility. The \$150 million operating credit facility matures in May 2022.

The following summary outlines the Corporation’s bank credit facilities:

(\$ millions)	June 30, 2017	December 31, 2016
Operating credit facility	<b>150</b>	150
Demand overdraft facility	<b>10</b>	10
Draws on operating credit facility	<b>(99)</b>	(91)
Draws on overdraft facility	<b>(2)</b>	(3)
Letters of credit outstanding	<b>(1)</b>	(1)
Credit facilities available	<b>58</b>	65

**6. FINANCE CHARGES**

Finance charges for the three and six months ended June 30 were as follows:

(\$ millions)	Three months ended June 30		Six months ended June 30	
	2017	2016	2017	2016
Interest on long-term debt <sup>1</sup>	<b>9</b>	9	<b>18</b>	18
Interest on short-term debt	-	-	-	1
Total finance charges	<b>9</b>	9	<b>18</b>	19

<sup>1</sup> Includes amortization of debt issuance costs.

**FortisBC Inc.**  
**Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)**  
**For the three and six months ended June 30, 2017 and 2016**

**7. EMPLOYEE FUTURE BENEFITS**

The Corporation is a sponsor of pension plans for eligible employees. The plans include registered defined benefit pension plans, supplemental unfunded arrangements, and defined contribution plans. The Corporation also provides post-employment benefits ("OPEB") other than pensions for certain of its retired employees.

The net benefit cost for the three months ended June 30 was as follows:

(\$ millions)	<b>Defined Benefit Pension and Supplemental Plans</b>		<b>OPEB Plans</b>	
	<b>2017</b>	2016	<b>2017</b>	2016
Service costs	<b>1</b>	1	<b>1</b>	1
Interest costs	<b>2</b>	2	<b>1</b>	-
Expected return on plan assets	<b>(3)</b>	(3)	-	-
Amortization:				
Actuarial losses	<b>1</b>	1	-	-
Net benefit cost	<b>1</b>	1	<b>2</b>	1

The net benefit cost for the six months ended June 30 was as follows:

(\$ millions)	<b>Defined Benefit Pension and Supplemental Plans</b>		<b>OPEB Plans</b>	
	<b>2017</b>	2016	<b>2017</b>	2016
Service costs	<b>3</b>	3	<b>1</b>	1
Interest costs	<b>4</b>	4	<b>1</b>	1
Expected return on plan assets	<b>(6)</b>	(5)	-	-
Amortization:				
Actuarial losses	<b>1</b>	1	-	-
Past service costs	-	(1)	-	-
Net benefit cost	<b>2</b>	2	<b>2</b>	2

The Corporation's cost related to the defined contribution arrangement is based upon a percentage of employee earnings. The Corporation's net benefit cost related to this arrangement for the three and six months ended June 30, 2017 was \$nil (June 30, 2016 - \$nil) and \$1 million (June 30, 2016 - \$1 million).

**FortisBC Inc.**
**Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)  
For the three and six months ended June 30, 2017 and 2016**
**8. SUPPLEMENTARY INFORMATION TO CONDENSED CONSOLIDATED STATEMENTS OF CASH FLOWS**

The supplementary information to the condensed consolidated statements of cash flows for the three and six months ended June 30 was as follows:

**Significant Non-Cash Transactions**

(\$ millions)	Three months ended June 30		Six months ended June 30	
	2017	2016	2017	2016
Change in accrued capital expenditures	2	(1)	(1)	(6)
Regulated asset for deferred income taxes	(1)	3	(3)	(7)
Brilliant Power Purchase Agreement lease costs regulatory asset	5	5	(3)	(3)

**Change in Non-Cash Working Capital**

(\$ millions)	Three months ended June 30		Six months ended June 30	
	2017	2016	2017	2016
Accounts receivable	6	10	15	14
Prepaid expenses	2	3	-	-
Current regulatory assets and liabilities	(6)	(1)	(5)	(2)
Accounts payable and other current liabilities	(22)	(16)	(9)	(16)
Income taxes receivable and payable	(2)	1	(11)	8
Change in non-cash working capital per statements of cash flows	(22)	(3)	(10)	4

The non-cash investing activities balances as at June 30 were as follows:

(\$ millions)	2017	2016
Accrued capital expenditures	12	8

**FortisBC Inc.**
**Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)  
For the three and six months ended June 30, 2017 and 2016**
**9. FAIR VALUE MEASUREMENT**

Fair value is the price at which a market participant could sell an asset or transfer a liability to an unrelated party. A fair value measurement is required to reflect the assumptions that market participants would use in pricing an asset or liability based on the best available information. These assumptions include the risks inherent in a particular valuation technique, such as a pricing model, and the risks inherent in the inputs to the model. A fair value hierarchy exists that prioritizes the inputs used to measure fair value. The Corporation is required to record all derivative instruments at fair value except those which would qualify for the normal purchase and normal sales exception, including certain of the Corporation's power purchase contracts.

The three levels of the fair value hierarchy are defined as follows:

- Level 1: Fair value determined using unadjusted quoted prices in active markets.
- Level 2: Fair value determined using pricing inputs that are observable.
- Level 3: Fair value determined using unobservable inputs only when relevant observable inputs are not available.

The fair values of the Corporation's financial instruments reflect point-in-time estimates based on current and relevant market information about the instruments as at the balance sheet dates. The estimates cannot be determined with precision as they involve uncertainties and matters of judgment and, therefore, may not be relevant in predicting the Corporation's future consolidated earnings or cash flows.

The carrying values of cash and cash equivalents, accounts receivable, energy management loans, accounts payable and other current liabilities and credit facilities on the consolidated balance sheets of the Corporation approximate their fair values.

**Financial Instruments Not Carried at Fair Value**

The following table summarizes the fair value measurements of the Corporation's long-term debt as of June 30, 2017 and December 31, 2016, all of which are Level 2 of the fair value hierarchy and recorded on the consolidated balance sheets at its carrying value:

(\$ millions)	June 30, 2017		December 31, 2016	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Long-term debt, including current portion <sup>1</sup>	660	838	660	791

<sup>1</sup> Includes secured and unsecured debentures for which the carrying value is measured at cost. Carrying value excludes unamortized debt issuance costs of \$6 million (2016 - \$6 million).

The fair value of long-term debt is estimated using quoted market prices when available. When quoted market prices are not available, the fair value is determined by discounting the future cash flows of the specific debt instrument at an estimated yield to maturity equivalent to benchmark government bonds or treasury bills, with similar terms to maturity, plus a market credit risk premium equal to that of issuers of similar credit quality. Since the Corporation does not intend to settle the long-term debt prior to maturity, the fair value estimate does not represent an actual liability and, therefore, does not include exchange or settlement costs.

**FortisBC Inc.**  
**Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)**  
**For the three and six months ended June 30, 2017 and 2016**

### 10. RELATED PARTY TRANSACTIONS

In the normal course of business, the Corporation transacts with its parent, FortisBC Pacific, ultimate parent, Fortis, and other related companies under common control, including FortisBC Energy Inc. ("FEI"), FortisBC Holdings Inc. ("FHI") and the Waneta Expansion Limited Partnership ("WELP"), to provide or receive services and materials. The following transactions were measured at the exchange amount unless otherwise indicated.

#### Related Party Recoveries

The amounts charged to the Corporation's parent and other related parties under common control for the three and six months ended June 30 were as follows:

(\$ millions)	Three months ended June 30		Six months ended June 30	
	2017	2016	2017	2016
Operating costs and other revenue charged to FortisBC Pacific (a)	2	2	4	4
Operating costs charged to FEI (b)	2	2	3	3
Operating costs charged to WELP (c)	-	1	-	1
<b>Total related party recoveries</b>	<b>4</b>	<b>5</b>	<b>7</b>	<b>8</b>

(a) The Corporation charged its parent, FortisBC Pacific, for management services, labour and materials.

(b) The Corporation charged FEI for management services and other labour.

(c) The Corporation charged WELP for the recovery of a portion of water fees.

#### Related Party Costs

The amounts charged by Fortis and other related parties under common control for the three and six months ended June 30 were as follows:

(\$ millions)	Three months ended June 30		Six months ended June 30	
	2017	2016	2017	2016
Power purchase costs charged by WELP (a)	3	3	19	18
Operating costs charged by Fortis (b)	1	1	1	1
Operating costs charged by FEI (c)	1	1	2	2
<b>Total related party costs</b>	<b>5</b>	<b>5</b>	<b>22</b>	<b>21</b>

(a) The Corporation was charged by WELP for purchasing capacity pursuant to a long-term power supply agreement.

(b) The Corporation was charged by Fortis for corporate management services and other compensation.

(c) The Corporation was charged by FEI for natural gas sales, office rent, management services and other labour.

**FortisBC Inc.**  
**Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)**  
**For the three and six months ended June 30, 2017 and 2016**

**10. RELATED PARTY TRANSACTIONS (continued)**
**Balance Sheet Amounts**

The amounts due from related parties, which are included in accounts receivable on the consolidated balance sheets, and the amounts due to related parties, which are included in accounts payable and other current liabilities on the consolidated balance sheets, are as follows:

(\$ millions)	<b>June 30, 2017</b>		December 31, 2016	
	<b>Amount Due From</b>	<b>Amount Due To</b>	Amount Due From	Amount Due To
Fortis (a)	<b>1</b>	-	1	-
FortisBC Pacific	-	-	1	-
FEI	<b>1</b>	-	1	-
WELP	-	<b>(2)</b>	-	(11)
Total due from (due to) related parties	<b>2</b>	<b>(2)</b>	3	(11)

(a) Included in accounts receivable is an amount due from Fortis related to the allocation from Fortis to FBC of the Part VI.1 tax associated with preference share dividends.

**11. CONTINGENCIES**

The Province of BC filed a claim in the BC Supreme Court on June 8, 2012 claiming on its behalf, and on behalf of approximately 17 homeowners, damages suffered as a result of a landslide caused by a dam failure in Oliver, BC in 2010. The Province alleges in its claim that the dam failure was caused by the defendants, including FBC, through the use of a road on top of the dam. The Province estimates its damages, and the damages of the homeowners on whose behalf it is claiming, to be approximately \$15 million. FBC has notified its insurers; however, FBC has been advised by counsel for the Province that a response to the claim is not required at this time. The outcome cannot be reasonably determined or estimated at this time and, accordingly, no amount has been accrued in the financial statements.

**12. GUARANTEES**

The Corporation has letters of credit outstanding at June 30, 2017 totaling \$1 million (December 31, 2016 - \$1 million) which were primarily to support the funding of one of the Corporation's pension plans and a wheeling agreement.
