FORTISBC INC.
Certificate of Public Convenience and Necessity Application
for the Distribution Substation Automation Project

NOTICE OF WRITTEN PUBLIC HEARING

THE APPLICATION

On August 28, 2007 FortisBC Inc. ("FortisBC") applied to the British Columbia Utilities Commission ("Commission"), pursuant to Sections 45 and 46 of the Utilities Commission Act, for a Certificate of Public Convenience and Necessity for the Distribution Substation Automation Project ("the Project").

FortisBC states that the Project is estimated to cost \$ 6.38 million and is required to enable improved substation data collection, remote equipment operation, improved distribution reliability, and enhanced power system planning and safety. The Project consists of installing automated control and data acquisition systems in 28 existing substations. All equipment design and operation is consistent with the equipment currently being installed in new substations in the FortisBC service territory. The Project is scheduled to commence in 2007 and to be completed by the end of 2011.

The Commission has established a Written Public Hearing process and regulatory timetable for the review of the Application, all as set out in Commission Order No. G-108-07.
