Trail, B.C. V1R 4L4

Dear Mr. Bennett:

Re: FortisBC Inc.
Project No. 3698458 – Order No. G-42-07
Customer Complaints regarding the proposed site of
the Naramata Substation Project

Hearing Issues List

Further to the Commission's June 1, 2007 letter (Exhibit A-6), the Commission has considered the submissions it has received regarding the draft Hearing Issues List for the Naramata oral hearing, and hereby establishes the final Hearing Issues List that is attached as Appendix A to this letter.

Mr. Karow, in his letter to the Commission of June 18, 2007 (Exhibit C1-41), makes reference to the possibility of new WHO and/or ICNIRP EMF guidelines being issued prior to the hearing. The Commission requests that FortisBC file any new guidelines, noting changes, prior to the hearing and comment on how the changes, if any, impact on the site comparisons.

The Commission requests that FortisBC attempt to respond to all outstanding Information Requests, including those attached to Mr. Andrews' letter of June 15, 2007 (Exhibit C2-5), on a reasonable efforts basis prior to the hearing, and will expect FortisBC to be able to respond in the hearing to any of the Information Request questions that it does not provide a written response for prior to the hearing.

Yours truly,
