Mr. R. J. Pellatt
Commission Secretary
BC Utilities Commission
Sixth Floor, 900 Howe Street, Box 250
Vancouver, BC V6Z 2N3

Dear Mr. Pellatt:

Re: FortisBC Inc. Naramata Substation Project No. 3698458

Please find attached for filing, Curriculum Vitae ("CVs") for FortisBC's witness panel. The panel consists of Doyle Sam, Vice President, Transmission and Distribution, Ian Finke, Senior Engineer, Transmission and Distribution Engineering, and Paul Chernikhowsky, Chief Planning Engineer.

Sincerely,

A handwritten signature in blue ink that reads "Joyce Martin". The signature is written in a cursive, flowing style.

Joyce Martin
Manager, Regulatory Affairs

cc: Registered Intervenors

Doyle Sam, P. Eng.
Vice President, Transmission and Distribution
FortisBC Inc.

Doyle Sam is FortisBC's Vice President of Transmission and Distribution responsible for the planning, engineering, and daily operations of the transmission and distribution system.

Doyle joined FortisBC in 2003. From 1999 to 2002, Doyle served as General Manager for TransAlta Utilities responsible for all operations of a power generating station in Alberta. Prior to that, Doyle held a number of engineering, planning and project management positions within TransAlta Utilities' Transmission and Generation departments.

Doyle holds a Masters of Business Administration (2000) from Queens University and a Bachelor of Science in Civil Engineering (1989) from the University of Alberta. He is also a member of the Association of Professional Engineers, Geoscientists of British Columbia. He is also a member of the Association of Professional Engineers, Geologists and Geophysicists of Alberta.

Ian A. Finke, P. Eng.
Senior Engineer, Transmission and Distribution Engineering
FortisBC Inc.

Ian Finke is a Senior Engineer responsible for engineering design for the transmission, substation and distribution system capital projects as well as supervising the Company's corporate GIS department.

Ian has 13 years of experience as a professional engineer in the civil, structural consulting and electrical utility industries. Ian's experience ranges from design and supervision of construction on projects ranging from site development, road reconstruction, water treatment facilities, commercial and institutional buildings and utility infrastructure across Ontario and more recently in British Columbia.

Ian joined FortisBC in 2005 as a Civil Engineer. Prior to joining FortisBC, he held positions with the Ontario Ministry of Transportation, STEM Engineering and the Warren Paving and Materials Group.

Ian holds a Bachelor of Science in Civil Engineering (1996) from Lakehead University. He is also a member of the Association of Professional Engineers and Geoscientists of British Columbia.

Paul Chernikhowsky, P. Eng.
Chief Planning Engineer
FortisBC Inc.

Paul Chernikhowsky is an electrical engineer with over 11 years of experience in electric utility power systems design, planning and operations.

As the Chief Planning Engineer for FortisBC, he is responsible for overall scope development and approval for all transmission and distribution projects. Prior to this, Paul was responsible for FortisBC's protection, control and telecommunications planning and design. Prior to working for FortisBC, Paul was employed by a consulting engineering firm which provided services to the mining and utility sector in British Columbia.

Paul has a Bachelor of Applied Science (1994) from the University of British Columbia. He is a member of the Association of Professional Engineers, Geoscientists of British Columbia and a Senior Member of the Institute of Electrical and Electronic Engineers (IEEE).
