Dear Mrs. Hamilton,

Re: Fortis B. C. Inc.
Project No. 3698477 / Order No. R-108-07.
C.C.N. for the
Distribution Substation Automation Project.

In my opinion this should be approved. Please take this as my response for the Nov 23rd deadline for intervenor comment.

In the light of today's interconnections & responsibilities to deliver the best possible service @ the lowest cost such technology has become necessary.

Sincerely, B. (Slack) Goodman.
