- 1.0 While it is understood that rate impacts cannot be predicted with any certainty, please advise the anticipated rate impact that approval of this application would have on RGS, SCS-1, SCS-2 and LCS-1 customers of Terasen Gas Inc. over the next three years. This impact is to be cited separately from any other anticipated or likely rate increases.

Response:

In response to this question the Companies have assumed that ROMS BC is requesting the rate impact on residential and commercial customers attributable to the EEC expenditures proposed in the Application. See BCUC IR 1.57.1 for Terasen Gas Inc. rate naming convention for residential and commercial customers.

Please refer to BCUC IR 1.52.1.1 (Line #37 of spreadsheet attachment) for the estimated cost of EEC expenditure on Terasen Gas Inc. customer rates for the time period 2008 to 2030.
