Attention: Ms. Erica M. Hamilton, Commission Secretary

Dear Ms. Hamilton:

**Re: FortisBC Energy Inc. – Revelstoke Service Area  
2014 Second Quarter Gas Cost Report**

---

FortisBC Energy Inc. (FEI or the Company) hereby submits to the British Columbia Utilities Commission (the Commission) the 2014 Second Quarter Gas Cost Report for the Revelstoke Service Area (Revelstoke). The attached schedules provide a summary of the forecast monthly Propane Cost Deferral Account balances based on the May 21, 2014 forward prices.

The schedule at Tab 1, Page 1, based on the May 21, 2014 forward prices, using the NYMEX B0 – Mt. Belvieu Propane Swap prices, and based on the current rates, the projected deferral account balance at June 30, 2014 is \$338,273 deficit (after tax), and the forecast balance at June 30, 2015 is \$195,662 surplus (after tax). The rate change trigger ratio is calculated to be 107.1%, which falls outside the 95% to 105% deadband range, and the proposed rate decrease that would be required to produce a 100% propane cost recovery-to-cost ratio is calculated to be \$1.235/GJ (Tab 1, Page 3, Line 20), which falls outside the minimum \$0.50/GJ rate change threshold, indicating that a rate change is required at this time.

Provided in Tab 2 are the details of the forecast gas costs for Revelstoke. The Company requests the information contained in Tab 2 be treated as CONFIDENTIAL.

## **CONFIDENTIALITY**

Consistent with past practice and previous discussions and positions on the confidentiality of selected filings (and further emphasized in the Company's January 31, 1994 submission to the Commission) FEI is requesting that this information be filed on a confidential basis

pursuant to Section 71(5) of the *Utilities Commission Act* and requests that the Commission exercise its discretion under Section 6.0 of the Rules for Natural Gas Energy Supply Contracts and allow these documents to remain confidential. The Company believes this will ensure that market sensitive information is protected, and FEI's ability to obtain favourable commercial terms for future gas contracting is not impaired.

In this regard, FEI further believes that the Core Market could be disadvantaged and may well shoulder incremental costs if utility gas supply procurement strategies as well as contracts are treated in a different manner than those of other gas purchasers, and believes that since it continues to operate within a competitive environment, there is no necessity for public disclosure and risk prejudice or influence in the negotiations or renegotiation of subsequent contracts.

In summary, the Company requests Commission approval for a decrease in the propane reference price (based on the NYMEX B0 – Mt. Belvieu Propane Swap prices) for use in the Revelstoke Propane Cost Deferral Account from \$0.4539/litre to \$0.4237/litre which corresponds to a rate decrease of \$1.235/GJ, effective July 1, 2014. As a result, the annual bill for a typical Revelstoke residential customer with an average annual consumption of 50 GJ per year will decrease by approximately \$62 or 4.8%.

The Company will continue to monitor the forward prices and will report these results in the 2014 Third Quarter Gas Cost Report.

We trust the Commission will find the attached to be in order. However, should any further information be required, please contact Doug Richardson at 604-592-7643.

Sincerely,

**FORTISBC ENERGY INC.**

**DRAFT ORDER**

IN THE MATTER OF  
the Utilities Commission Act, R.S.B.C. 1996, Chapter 473

and

An Application by FortisBC Energy Inc.  
Regarding the 2014 Second Quarter Gas Cost Report and  
Propane Commodity Charges effective July 1, 2014  
for the Revelstoke Service Area

**BEFORE:**

[Date]

**WHEREAS:**

- A. By Order No. G-41-14 dated March 13, 2014, the British Columbia Utilities Commission (the Commission) approved the propane rates for the FortisBC Energy Inc. (FEI) Revelstoke service area (Revelstoke) effective April 1, 2014;
- B. On June 4, 2014, FEI filed its 2014 Second Quarter Gas Cost Report for Revelstoke (the 2014 Second Quarter Report);
- C. Using a propane price forecast based on May 21, 2014 NMYEX B0 - Mt. Belvieu propane swap prices, and based on the existing rates, the projected after tax deferral balance at June 30, 2014 of \$338,273 deficit is forecast to change to \$195,662 surplus at June 30, 2015. The rate change trigger mechanism is calculated to be 107.1 percent which falls outside the deadband range of 95 percent to 105 percent. The proposed rate decrease is calculated to be \$1.235/GJ, which falls outside the threshold;
- D. In the 2014 Second Quarter Report, FEI indicates that current propane cost recovery rates will over recover costs and a propane rate decrease is required, effective July 1, 2014;
- E. The proposed Gas Cost Recovery Charge requested within the 2014 Second Quarter Report would be equivalent to a decrease of approximately \$62 or 4.8 percent, based on an annual consumption of 50 GJ;

- F. FEI requests that the forecast gas cost information for Revelstoke in Tab 2 of the 2014 Second Quarter Report be held confidential on the basis that it is market sensitive information;
- G. The Commission has determined that the requested changes to the propane reference price and propane rate for Revelstoke should be approved.

**NOW THEREFORE** pursuant to Section 61(4) of the Utilities Commission Act, the Commission orders as follows:

1. The Commission approves a propane reference price decrease of \$0.0302 per litre, from the existing propane reference price of \$0.4539 per litre to \$0.4237 per litre, which corresponds to a decrease of \$1.235 per gigajoule in customer rates, effective July 1, 2014.
2. FEI will notify all customers that are affected by the rate change by way of a bill insert or bill message.
3. The Commission will hold the gas cost information for Revelstoke in Tab 2 of the 2014 Second Quarter Report confidential.

**DATED** at the City of Vancouver, In the Province of British Columbia, this        day of June, 2014.
