The Workshop is scheduled to end at no later than noon.

Below is the Agenda for the Workshop.

For each topic on the agenda above, FEI will provide a short presentation and will then respond to questions related to that topic. The open question period at the end of the Workshop is set aside for any remaining questions that participants may have with respect to the Application.

Due to the technical nature of Demand Forecasting and in order to ensure the Workshop is as efficient and productive as possible for parties, FEI will have representatives available at the Workshop to discuss the Demand Forecasting topic at a high level only. Detailed Demand Forecasting questions often require research and referencing of other materials and source documents; therefore, FEI will be prepared to handle any such questions as undertakings.

If further information is required, please contact the undersigned.

Sincerely,
