

## Notice: Status Update

November 29, 2018

This notice is to advise that at this time, Fortis is not making any operational changes to the amount of authorized imbalance return or the supply restriction at the Lower Mainland.

Once Westcoast issues a notice indicating the operational available capacity for December 1, Fortis will then issue another notice advising of any operational changes. The notice from Westcoast is expected today in the late afternoon or early evening.

As a reminder, the following operational conditions are in place currently:

### **Lower Mainland:**

Imbalance return is 30,000GJ. Each applicable Shipper has received an allocated volume of Imbalance Return based on their percentage load at this location. To view your allocated amount, check your SCH QTY field for your Lower Mainland imbalance return nomination.

The Hold to Authorize will **remain in effect** at the Lower Mainland as it is today until further notice. This means your group of customers must balance within a **5% tolerance**.

If a Shipper or Group, as applicable, takes Unauthorized Overrun Gas (i.e., Gas in excess of the amount specified above), then unauthorized overrun charges will apply per the applicable Rate Schedule. Specifically, the first 5% will be charged at the Sumas Daily Price. Gas taken in excess of 5% will be charged the greater of CAD \$20.00 per gigajoule or the Sumas Daily Price times 1.5.

### **Interior:**

Imbalance return is 40,000GJ. To view your allocated amount, check your SCH QTY field for your Interior imbalance return nomination.

The Hold to Authorize remains **lifted** in the Interior until further notice.

**FortisBC reserves the right to limit the use of imbalance return or otherwise curtail service. FortisBC will provide as much advanced notice as possible in the event of changes.**

If you have any questions or concerns, please email us at [TransportationServices@fortisbc.com](mailto:TransportationServices@fortisbc.com) or call the Hotline at 604-592-7799.
